Greater New Bedford
a division of The Arc of Bristol County

How You Help...

The Arc of Greater New Bedford (*a division of The Arc of Bristol County*) established in 1956, serves individuals with intellectual and developmental disabilities and their families throughout greater New Bedford.

Education Advocacy - Children with intellectual and developmental disabilities are entitled to services under IDEA (the Individuals with Disabilities Education Act). Education Advocates provide critical assistance to ensure that these children access and retain essential services for adaptive and therapeutic needs.

Adult Family Care - Funded through MassHealth, Adult Family Care (AFC) offers Massachusetts residents who may have a cognitive, physical or mental disability, a chronic illness, or advanced age, the opportunity to safely live in a family or caregiver's home. Each participant receives the assistance they need with personal care and activities of daily living so they can remain as independent as possible.

Extended Day Program - Provides opportunities for individuals with intellectual and developmental disabilities to attend community outings and skill building classes. Individuals involved in the Extended Day Program find a relaxed and welcoming environment to build friendships, develop life skills and explore interests within a safe and supportive structure.

Community Directions - Serves medically fragile individuals with intellectual and developmental disabilities who are patients of the Vibra Rehabilitation Hospital. Offering participants opportunities for individualized services and recreation.

"I don't know what I would do without my Advocate! She goes above and beyond. She helped me find the right placement for my son and made sure he receives the right services to be all he can be. With her help, I believe he can graduate from High School."

-Ann

Proceeds from the 40th Annual Arc Charity State Representatives Cup will fund The Arc's Education Advocacy in Greater New Bedford Schools.
